If you like healthy eating that will really surprise your family this would be right book for you. Slow cooker means that meals are prepared just by putting ingredients into it, and all you have to do is just wait. Not that is time efficient but also meals are nutritious and tasty. The main thing is that we live in very fast pacing times, and it is hard to find time to cook. Book starts with introduction of Keto diet, benefits of slow cooker.. Recipes include Mexican breakfast, cheesy ham scramble, chilli chicken, easy morning pie, cesar sandwiches...Nice and healthy recipes, 60 of them.

Sometimes when you are trying to accomplish a certain diet having a cookbook is probably going to come in handy because, as a beginner, you don't have much in your arsenal of knowledge. So this book was a great refreshment of ideas I can implement in my diet so it's more sustainable. Great Delicious recipes, I only went through like 10 but so far, it tastes great!

The recipes are fairly simple and I appreciated the day to day meal plan. The recipes had the breakdown of the numbers per serving. It is extremely important to know your intake of fats vs protein and carbs, not net carbs actual carbs. Some Breakdowns were provided in the meal plan but mostly only net carbs. I would definitely use this as a guide for a truly Ketogenic lifestyle.
