# Boundary Born (Boundary Magic Book 3)

## Synopsis

Something wicked is at work in Coloradoâ™s supernatural community. Vampires are being paralyzed or killed with poisonâ—a weapon favored by witches. This offense threatens to break apart the already-fractured alliance between witches and the undead. The stateâ™s cardinal vampire, Maven, summons boundary witch Allison âœLexâ•Luther to stop the killing before it ignites a war. Lex has barely started investigating when she gets another surprise: the biological father sheâ™s never met arrives on her doorstep. He has answers to all of Lexâ™s questions about her bloodline, but getting those answers could mean betraying the life sheâ™s already built. Then the next vampire is poisonedâ—and this time itâ™s Maven herself. The new evil that hunts Lex is powerful and ruthless enough to stop the strongest supernatural creature in the state. In order to find such a killer, Lex will have to face down her own birthright and call on every allyâ both living and dead.

## Customer Reviews

The story is actually interesting. But I'm sorry to say that I'm not that impressed with the lead character Lex Luther. This is a review basically of all 3 books in the series to-date.\*\*\* some spoilers ahead \*\*\*I don't like the character much because she always reacts instead of acts. For an

ex-soldier, she doesn't think much on strategy. Supposedly, her entire motivation is to protect her niece, her one blood link to her dead twin. And yet, she eschews training and learning. She is terrified of her own powers then acts surprised when others show the same fear. She asks but doesn't hear. Control your powers so they don't control you. Military strategy 101 is control your environment. Or try. There's always a part of the fight scenes where she trips. Always. For a soldier, her hand to hand skills are not much to talk about. In most of the fights, she gives up, about to die, then one of her friends swoop in to save her. In this book, she sacrifices herself without a backup plan. Oh yes, sorry she did have a backup plan -- to use modern weapons against the villain who can't die. And who is supposed to be very powerful. So smart. The hero Quinn isn't really much of a hero. Doesn't impress me at all. I wouldn't be surprised if he gets killed in the future and the author uses his death to spur Lex to do something. Probably another sacrifice. Don't get me wrong, he is described as a hunk. But his character is not really felt. He's really more like a background piece. If Lex ends up with Simon instead, I wouldn't be surprised. Anyway, while the author kind of left you hanging a little bit, I don't really feel much for Lex' future to invest further time in this series.
