## Customer Reviews

I was recently given this book as a birthday present and I am really impressed. It is full of gorgeous color photographs of the authors garden and hundreds of other aromatic plants. This book is filled with a wealth of historic, scientific and folkloric information that any aspiring herbalist or plant enthusiast would find fascinating. Tons of tips on cultivating individual plants, harvesting, preserving and creating herbal products. Recipes, plant profiles, garden design ideas. The best birthday present and soon to be my gardening handbook.

This is a really well done book. It is full of instruction, inspiration and passion. It is also fun to read and at some point while reading you will most likely feel an overwhelming urge to head to a nursery! Really a great buy and cheap at the price for what it contains.

Author is knowledgeable and easy to understand. Great Book!

great service
