## **Customer Reviews**

Short and fairly easy to read. But the fact that it has no maps, no illustrations, some editing errors and the occasional repetitive information makes it less enjoyable. Unless it was 0.00\$, probably more like a 2-2.5 stars to be honest.

This is a very good start to learning high level information of Sumerian society. With a decent bibliography to follow the intrigued have further adventures ahead. I would certainly recommend this to the beginner and encourage them to further studies.

Well researched, well written, and well sourced. This is a good introductory work reflecting current attitudes towards Sumerian culture. It's a short read, but written in such a way to hold the interest of common folks while presenting information scholars would appreciate.
