Synopsis

Low Carb High Fat 101 Do you want to learn about the Low Carb High Fat Diet (LCHF) from a Healthcare Professional? Ready to get fat adapted and start burning through your fat reserves? Tired of people telling you that high fat diets are dangerous? Going low carb and boosting your fat intake is one of the latest new diet trends sweeping the world. But itâ™s been around since the 1950â™s but has been kept secret by the powers that be until now. Now more than ever people are talking about becoming fat adapted athletes and getting into ketosis. How does that work? Are you ready to lose weight, feel great, reverse the effects of aging, and have a better quality of life? Then this book is for you! Iâ™m a holistic trained physician who has been focused on Intermittent Fasting, Ketogenic Diets, LCHF, Weight Training, and Endurance Sports for the past 20 years. I discovered how combining Intermittent Fasting with a Ketogenic Diet has lead me down a path to fat adaptation, massive weight loss, and incredible energy and health. Give a man a fish you can feed him for a day, teach a man to fish he can eat for a lifetime. Thatâ™s my philosophy and the reason why this book doesnâ™t need to be 300 pages on a simplistic topic. Every techniques here are all base on science explanation. A book with a lot of benefits especially to those who wants to loose weight.

I didnt know what low carb diet is until i read this book though i have the idea that it may be something like cutting of the carbohydrates intake. And I can say that the book have done a good job in explaining through categorizing each chapter regarding information about the LCHF. The indept discussion of this diet, what LCHF stands for, and bits of information regarding everything that I need to know about this diet. The book also talks about what I should be watching for, and what I should grab instead. It is a comprehensive guide because it also tells the reader the possible mistakes committed with this diet, and how we can prevent them. There is a brief discussion on types of trainings that we can do while engaging in the low-carb high-fat lifestyle. The bonus part is that you get a free diet plan for the week including what should be in the grocery list as we engage in this diet. Interesting read!

A great resource. Has a step by step process that is easy follow with all the resources to start a fat adapted diet.

Great booklet for success in low carb diet!
