Customer Reviews

Great beginner's resource! I ordered the e-book version, and was pleased to find so many tips and tricks for sewing doll clothes. The patterns are simple to follow and produce great results. I am past the "beginner" stage, yet I found the tips useful and the patterns are easily embellished and/or customized to suit your taste. For beginning or more advanced sewers of doll clothes that are on a budget, this is a great pattern book for you!

I did not like the pattern pieces being printed on the front and back of the paper attachment. It meant

that I had to photocopy the pattern pieces to use them. A cd would have been a better idea.

Just the cutest patterns for the 18 inch doll. Made so the beginner can make adorable outfits for their dolls. I purchased this so I could have several styles to make doll clothes for the young girls at my church. These patterns are easy and basic, making it easy to get very creative with your own ideas and designs. I highly recommend this book.

I agree with the previous poster...the pattern pieces on both sides is a huge nuisance!

Lovely outfits and patterns.
