## Customer Reviews

I don't know if it was because I have it on my kindle or what. I am a cook that likes to see how a dish is supposed to look before experimenting with something new. I usually improvise anyway but it is still nice to see what it was supposed to look like before attempting to cook it.

As you can tell by the sub-title, the author tried to cover way too much territory in one book. In doing so, his chapter headings are confusing; and at times, the recipes can be hard to find. There are good recipes in this book, if the reader has the time to hunt for them.

I got some recipes out of it that my family enjoy. What more can you ask of a cookbook?

Great for a Cold Winter Day !

My Granddaughter loves it, I bought her a slow cooker which she loves.

Good recipes for real food.

Great recipes
