Customer Reviews

I found a few good recipes here but was put off by the poor editing. One recipe called for lemons in the ingredient list, but did not mention lemons again in the directions. Instead it said to add the apples to the mixture, but apples had not been included in the ingredients list. Another recipe called for me to pre-heat my oven to 200 degrees, but then instructed me to fry the tomatoes in a frying pan. There were many more examples like that. I love that many people have the opportunity to self-publish books. I've discovered some wonderful new writers who have self-published books that might not have gotten published by a traditional publisher. But it is incredibly frustrating and distracting when a book is poorly edited and proofread, and I have to try to figure out what the author MEANT to say. If you want to publish a book, PLEASE put the time and energy into proofreading it. At the very least get a friend who has good language arts skills to proof your work before you publish it. Ideally, hire a professional editor. It's hard to take a book seriously when it is poorly written. Even cookbooks and other how-to books should employ good grammar and be well constructed.

A short yet detailed written instructions on losing diets! Keto smoothies and drinks is really a starter kit for a healthy lifestyle and an efficient way to loss weight in few days! Though there are many different kinds of diet plan and it could all be confusing, hard to follow plans. This is the right resource for those who are in need of the right plan - Ketogenic plan that include breakfast, smoothies, salad and detox drinks. Ketogenic is basically a low carb diet with sufficient amount of proteins and very high fats. It's very effective with a high tendency of making your body burn away fats effectively. This is a great book with an effective approach to losing weight!!!
