The Science Fair Is Freaky! A Branches Book (Eerie Elementary #4)

Synopsis

Pick a book. Grow a Reader! This series is part of Scholastic's early chapter book line Branches, aimed at newly independent readers. With easy-to-read text, high-interest content, fast-paced plots, and illustrations on every page, these books will boost reading confidence and stamina. Branches books help readers grow! Eerie Elementary is having a science fair. Sam, Antonio, and Lucy are hard at work on their projects when they find a strange, old book. Suddenly, the school comes alive! The ground shakes, science projects explode, and the school gym turns into a giant volcano! How will Sam and his friends fight hot lava? And what is hidden in that strange, old book?

Grade Level: 1 - 3

Customer Reviews

This is not a specific review of this book, but of the series as a whole. My 8-year-old daughter, Lilyanna, has enjoyed these books since they first came out (I think she was 6 when she received the first). At one point, it was unclear as to whether or not there would be any additional books showing up in the near future, so I wrote a letter to the author to ask about future releases, not expecting a whole lot in return. To my surprise, he replied, he was super nice about being bothered, and seemed to appreciate reading that Lily was tired of waiting for a new book to come out and had

started creating her own stories about Sam and the school to fill the time. Overall, a cute series for young readers.

Kids were anxiously waiting for this book and it definitely didn't disappoint!

Very fun story. My daughter has been reading it too me. She loves the series

This is such an amazing book. It has such fun and adventure storyline. My son, who is 7, loves this series. He wants more. It is totally worth the money. !!! It keeps you captivated and wanting more.

My 8 year old son that doesn't love to read, read this book in a day! All of the other books in this series also my son LOVED!

We love these books. Fun stories that are great for readers graduating to chapter books but who still love the pictures.
