# The Ultimate Guide To Pokemon GO: Ultimate Game Guide, Game Walkthrough, Tips, Tricks & Strategies

## Synopsis

Pokémon GO not only eliminates the gap between the real world and the virtual reality but also uses real locations and landscapes to encourage players to explore their surroundings and "catch 'em all"™. However, what is so exciting about this game is the fact that you are thrown into the world of virtual hunting without any instructions or help. Therefore, we have designed this book to walk you through the Pokémon GO reality and share with you the game features, tips, tricks & secrets you need to know to be the very best.

## Customer Reviews

Probably the best pokemon go guide out there. Everything is so detailed and beautifully formated, with pictures. And overal it has been long time since I read a book from kindle that seemed so well done. Not only it covers everything you need to know to start the game, but gives you tips and tricks how to do certain things better, like egg walking, pokemon training and a lot more. Really really liked this one.

Pokemon GO mega popular game. This is an extraordinary game which uses augmented reality. In order to play Pokemon GO need mobile device access to the network on which it will be clear where you are to put the back of a Pokemon, and video camera through which you can see a pocket monster. This is a great guide for beginners. I recommend to read.

I have heard about Pokemon Go on TV and decided to learn how to play it. This book explains what this game is about and also teaches how to play it. I liked especially a section about eggs hatching and how to track Pokemon. I liked the writing style of the author and feel that this tips will make my game experience better.

Finally a Pokemon Go book which has more than just ways to save battery power! This is the most in depth and usable guide that I've come across. Catching, curveball throwing, training and evolving pokemon are all well covered. Well written and the tips work well! highly recommended.

This is very good book study about the Guide of Pokomon.PokÃ©mon GO not only eliminates the gap between the real world and the virtual reality but also uses real locations and landscapes to encourage players to explore their surroundings and â™catch â™em allâ™. This is an extraordinary game which uses augmented reality.

Surprisingly, PokÃ©mon Go has a lot going on despite how simple the game is on the surface. Whether you have yet to begin amassing your collection, or you are well on your way to filling out your PokÃ©dex, this book will breakdown all the gameâ™s nuances and various ways to play. Try it!

Honestly since this game came out I am really hooked to this game. And what makes it more exciting is because I can able play with my daughter. This is really addicting game so we just play this during weekend. This book has the ultimate guide on catching Pokemon. Tricks are amazing and it helps us succeed. Overall it was good guide.

Thanks to the author for this book! I learned a lot of new, new strategies, open secrets, and much more. Now the game Pokemon Go has become for me a lot easier. I recommend this book to all new players.
