FAR/AIM 2017: Federal Aviation Regulations / Aeronautical Information Manual (FAR/AIM Series)

Synopsis

Now includes the new "Remote Pilot" and "Unmanned Aircraft Systems" regulations (drones), 14 CFR Parts 48 and 107! ASA has built a reputation for providing the aviation community with the most accurate and reliable FAR/AIM products available. The 2017 FAR/AIM book continues this tradition, containing complete and up-to-date information from Titles 14 and 49 of the Code of Federal Regulations (14 and 49 CFR) pertinent to General Aviation, Sport Pilots and Flight Instructors, combined with the Aeronautical Information Manual (AIM), and a free email subscription service for you to receive updated information as it is released by the FAA. Convenient handbook-sized 6" x 9" format; see backcover copy and table of contents for more details. ASA's FAR/AIM Series has been the standard for printed reference books containing the aviation industry's regulations for more than 30 years. ASA consolidates the FAA regulations and procedures into easy-to-use reference manuals full of information pertinent to pilots, flight crew, and aviation maintenance technicians.

Customer Reviews

Nothing on planet earth compares to the page turning thriller of the FAR/AIM 2017. This book offers nonstop thrills from cover to cover, keeping your heart rate up from the moment you pick it up to when you turn the final page. Highly recommended for any lover of aviation, just like last year! I won't give away the final surprise but something does happen to the main character that will have you on the edge of your seat right through Chapter 5!

Good product

The best dry and boring material around for an up and coming licensed A&P. This is a really nice compact book though to be honest.

As a Flight Instructor, keeping up with the latest information is key and does it well.
