Illustrated History Of The Sturmgeschütz-Abteilung 202

Synopsis

The SturmgeschÄtz-Abteilung 202 was one of the most successful German assault gun units in the Second World War. It had been deployed exclusively on the Eastern Front against the Red Army between 1941 and 1945. The StuGs of this unit were very effective AFVs on the battlefield in the role of heavy weapons for infantry fire support and also as mobile antitank firepower. Dr. Norbert SzÄjmÃ©vÃ©ber, author of Waffen-SS Armour in Normandy and Days of Battle, presents a detailed combat history of this unit, primarily based on archival sources. The book includes a significant number of rare photographs and several maps.

Customer Reviews

After learning about this new book from PeKo Publishing awhile ago, I was eagerly awaiting this new book. As of today, after reviewing the book, I now know why. This may be the first real Einheitsgeschichte (Unit's history) book of SturmgeschÄtz-Abteilung 202, one of the most successful SturmgeschÄtz units of the Wehrmacht. This unit did bear a total of 1 Knight's Cross with Oak Leaves, 6 Knight's Crosses and 18 German Cross in Gold-holders. It held Panzerasse (Tank Aces) such as Fritz Amling, Heinz Scharf and Richard Schram. First of all, the

book enjoys a beautiful hardcover and contains a valuable 396 pages filled with information, day by day history, photographs and maps. I do want to note out, and I contacted the publisher already, the e-mail contains a spelling error and it shouldn't be [œinfo@pekopbooks.com](mailto:oeinfo@pekopbooks.com) • but [œinfo@pekopbooks.com](mailto:oeinfo@pekopbooks.com) •, should you be interested to contact them. Sturmgeschütz Abteilung 202 Book The book contains in numbers: 396 pages, 108 photos, 40 maps and documents and 9 color plates of Sturmgeschütze. It's divided in 3 big parts, [^]Part I: In Heeresgruppe Mitte, Part II: In Heeresgruppe Süd and Part III: In Heeresgruppe Nord •, subdivided in various Chapters. Ending with plenty of data statistics, strength, maps, over hundreds of photographs and color plates. Before you'll be taken into the unit's history, the author provides you with a 3-page history behind the concept of the Sturmgeschütz. The unit's history is nicely presented by a daily chronology, starting from the first operational date of Sturmgeschütz-Abteilung 202 on September 16, 1941 until its end on May 8, 1945. Perfectly made for research purposes, should you want to know what happened on " for example " 3 December 1941..
