Customer Reviews

I recently bought myself a nice iron skillet following many cooking articles on the web that swear by it. I knew it is very good for meat, that it will probably outlive me and that's about it. This book showed me so much more. I didn't have a clue that you can use iron skillet to cook, bake, fry and sear so many types of food! Maybe 25 recipes don't sound as much, but trust me, the variety and quality of them is great. Typically, in one cookbook I find that about 20 % recipes are usable to me. Here, there is maybe 2-3 that I don't like. That is a good percentage to me. There are, of course, recipes for steaks and other meats, but there are also delicious recipes for sips, eggs, even pizza and lasagna. Meat and steak recipes can be found in almost every book about iron skillet, but the other ones, not so much. I recommend this book, a really pleasant surprise among the many very similar cookbooks out there.

I love Cast Iron skillet recipe. I bought this book for getting some new cast iron recipe and I have found 25 recipes inside this book. I really liked the recipe. The author is well experienced, he made the recipe so easy for us with his very clear instruction. I have tried few of those recipes and found each of this very delicious. I would recommend this book to everyone. â €
