## Customer Reviews

The text in this "book" would not fill a half page of paper. All it says is that oregano is the cure for herpes, cancer, HIV and whatever ails you. A sick, pathetic joke on any person looking for information on these topics. It is a disgrace that allows this to be sold on its website.

Expected to actually learn something more than what I got from this book. Overall is good, but nothing special for me.

I enjoyed the short book it was very informative it was about three or four pages about a minute or two to read.
