# South Beach Diet Phase 1, 2 & 3 Exposed!: Pros & Cons. Do's & Don'ts

## Synopsis

"A diet that does not require you to measure, count the amount you consume in ounces, or weigh the grams of carbohydrates in the food you eat." The South Beach Diet is a lifetime approach of healthy eating by balancing the lean protein, good carbs, and healthy fats in your meals. This diet focuses on consuming plenty of fiber by including more vegetables and fruits in your eating plan. The low glycemic load of this weight loss method also prevents the increase of blood sugar, which helps fight food cravings, which in turn helps shed the excess pounds and even prevent the development of diabetes and cardiovascular disease. Despite its seeming complexity, the South Beach Diet is a relatively easy plan to follow, and once you've completed the first phase, the fruit and starch restrictions will be over, and you will be able to eat all the healthy foods allowed in this diet. The first two-week restriction of this famous diet is definitely worth it. You don't even have to start with the restrictive phase if you have less than 10 pounds of weight to lose. This technique is reasonably simple. No need to count calories. All you really need to do is eat three balanced meals a day. Just follow the guide for a healthier and fitter you. Includes a 300+ South Beach Diet food list for shopping, seven day South Beach Diet meal plan, and South Beach Diet recipes.

## Customer Reviews

I listened to the Audible version of this audiobook. SOUTH BEACH DIET PHASE 1,2 & 3 EXPOSED was a great and informative listen. Much of this I follow already but I learned several new things to try from this audiobook. This would be very helpful for anyone dieting. Getting past the first few weeks is a breeze, especially when you begin noticing your clothes fitting looser. This book also had

some great recipes to try. The one I want to try first is the milkshake. This will be a good replacement for the ones I eat. Lower fat content. A few other ones that sound yummy are the portobello stacks, bacon quiche cups, and vanilla chill. great book by A.R. CLAYTON. KEVIN F. SPALDING did a fine job narrating. He was the perfect reader for this audiobook."This audiobook was provided by the author, narrator, or publisher at no cost in exchange for an unbiased review courtesy of Audiobook Blast."
