Customer Reviews

Australian author Dr. George Michael is originally from New Zealand where he earned his doctorate in dentistry, and moved to Australia to practice as a dentist and pursue his passion for horse racing. He is an avid horseracing statistician and writes for sports websites, His columns on the Melbourne Cup are featured extensively in Melbourne Cup previews. In 2008, at 29 years of age, he was suddenly afflicted with lymphoma and endured over 12 months of surgery and chemotherapy. It was during this dark period that he realized how truly valuable it was to give more than to receive. His obsession with helping people create more than one income stream and to not be so reliant on one occupation for financial freedom is one reason he has published this book that uses his knowledge of systems, statistics and financial numbers to share his formulation of a wagering system on the Melbourne Cup race, a system he has used every year since to supplement his income and enrich his familyâ™s life. It is in this very sharing manner that he offers his life experiences and his entry into the â^Swimming in the Wealth Streamâ™. As he states, â^Selecting the outright winner is not enough. Typically, this would return 10 times the amount wagered. What this system teaches is not only to select the likeliest winner, but also to have a great chance at getting the places correct too. This is how to supercharge your profits. If youâ™re willing to invest the time into researching the horses and following the system, youâ™ll be cashing in on the Cup every year as well.
