Feng Shui On A Dime: Affordable Feng Shui For Love, Wealth, Health And Success

Synopsis

Master the art of earth acupuncture and manifest more love, wealth, health and success using the secrets of feng shui. Feng Shui on a Dime is a step-by-step happiness guide that demystifies the ancient Chinese practice of feng shui for beginners or veterans and mixes modern with traditional (and always affordable) solutions to help you organize your life and activate the laws of attraction. You ll discover how to use feng shui to:

- Attract more love into your life
- Add more sizzle to your current relationships
- Decorate for optimal health and disease prevention
- Cultivate self improvement and personal growth
- Energize the flow of money into your home
- Maximize your wealth-generating potential
- Elevate your career to exceptional heights
- Enhance your reputation
- Organize your life without stress
- Draw in more opportunities for personal transformation success
- Enrich your family life...and much more!

It is your divine right to live your best life ever, but how do you make it happen? By activating the potent creativity inside you and letting it dance with the energy of the universe, your wildest wishes can come true. Sprinkle some feng shui into your world and watch your positive intentions bloom beyond belief. Whether you are looking to learn feng shui for beginners or more advanced feng shui principles, Feng Shui on a Dime empowers you with easy-to-implement, inexpensive feng shui cures to help you live your best life. Get ready for love, wealth, health and success, because all it takes are a few adjustments to ignite the laws of attraction and personal transformation success!

Customer Reviews

I was kind of surprised at how interesting Feng Shui really is. I had remembered hearing about how if you placed your bed in one direction it brought good things, but if you did it another way it brought bad things. It was little things like that. Growing up I can remember people I know referring to it as some "hippie stuff". Which is funny now because, in reality, it's an ancient art form all on its own. I would even venture out to say it's a belief system as well. Because in order for you to feel the effects, you have to have some type of understanding and resolve towards the movement. I appreciate the fact that Stephanie didn't just throw you into the middle of a book and expect you to figure out on your own exactly what the practice is. She took the time to explain it, in short, it has to do with the ancient Chinese art of placement. Being a practitioner it is believed that you are able to adjust and balance the five points of directions. Health, wealth, career, love and family. At some point all of these are certain ones create a change in your life that can bring you good chi or bad. It's about finding a balance that works well for you. Each chapter in the book is dedicated to those five areas, again being health, wealth, career, love and family. Stephanie breaks it down by room as well. I had no clue that the way my kitchen is set up is totally the opposite of what she explains. For example, my kitchen isn't set into the back of the house. Nor does it have a set up that would easily bring more positive energy. The stove is against the wall, but in a corner, which apparently isn't good either. It's really interesting to look at it from a different perspective and I'm contemplating changing it up. For me, insomnia is a huge issue.
