# QuickBooks: The Easiest And Simple Guide To Learn QuickBooks. (Quickbooks 2016 Guide, Bookqueeping, Quickbook Hosting, Accounting Solutions, Personal Finance, Small Business, Software.)

# Synopsis

Use this powerful guide to immediately Learn QuickBooksThis book contains proven steps and strategies on how to use QuickBooks.Why do you need inventory control software in addition to QuickBooks to manage your business? If you perform daily inventory, tracking your inventory data could quickly become overwhelming without inventory software to track data such as items received and item location and quantity after receipt. Using warehouse or inventory management software that integrates with QuickBooks would create an accurate and efficient system for controlling the inventory aspect of a business such as a warehouse or stockroom. The need for an integrated system could be determined by how QuickBooks accounting software is utilized, inventory size and budget.How are you currently using QuickBooks software? If you are a warehouse manager, inventory control software in addition to accounting software is recommended for managing inventory efficiently. A paper-based method of recording inventory receipts, inventory moves, serial numbers, units of measure and cycle counts would not be able to keep up with a large or ever-increasing amount of on hand inventory.With the right warehouse management system (WMS), designed with a plug- in for QuickBooks, you could:Close a purchase order upon receipt of a shipmentRetrieve QuickBooks sales orders & upload them into WMS softwareGenerate InvoicesClose a Sales order after an order is pickedyou need this bookHere Is A Preview Of What You'll Learn... ## Customer Reviews

Whether your a small or medium sized business or large conglomerate, there is great value added by utilizing the Intuit QuickBooks software system. This book gives an excellent detailed account of this superior software, uses for the cloud, security, hosting, business management tools and many more applicable functions. In today's fast paced business climate, having a tool such as QuickBooks will keep your business well organized and running smoothly. This book is easy to follow and well written. Highly recommend for any business owner or entrepreneur.

This is a great book. It helped me understand a lot of things and I am sure to use those techniques in my business.

Doesn't teach you Quickbooks. Chapters are along the line of "Choosing Best QuickBooks Hosting" and are only ~2 pages long each.

If you're looking for a book to tell you how to use Quickbooks, look somewhere else.
