Wine Pairing: 7 Wine Secrets You Wish You Knew: How To Translate A Restaurants Wine List (France, Australia, California, New Zealand, Napa, Red, Champagne, ... You Need To Know About Wine Book 1)

Synopsis

Hello sexy wine people of the world! My name is Tom, and I'm here to reveal to you the 7 Wine Secrets You Wish You Knew. Have you ever wondered which wine pairs well with Chinese food or Pizza? Or how about turkey, lasagna or pasta carbonara? Choosing wines for fish, chicken and beef is easy, but what do you choose when your dinner recipes are a little more complicated? That's why you need to download this book! Here is a preview of what you will learn... Help you to reveal which wines you will enjoy Help you to choose the best wines to pair with food Help you to select great wines from a restaurants wine list or a wine store And so much more! From the hot and bold Chardonnays of California to the beautiful and elegant Champagne and Bordeaux regions of France, the info in this book will give you the power to choose great wines with confidence, every time. From one wine geek to another, you don't need to be a wine expert to choose great wines. But, you do need to download this book. Unless you actually like to translate maps and analyze the weather patterns of wine regions to try to figure out the precise acidity level of a wine to see if it will pair well with the pasta carbonara you plan on making tonight, lol! Impress your friends! Choose great wines with confidence! What are you waiting for? Take action now and get this Kindle book for only \$2.99. Download today! Customer Reviews

The great thing about this book is that it will get you through 95% of wine lists out there - even in NYC. Unless you're at a place that employs someone especially for their wine list, this book will get you through it, and you may even know more after reading it than the manager or owner who probably chose those wines - or even worse, the rep who just unloaded what they needed to sell. That being said, this book doesn't de-mystify, it explains, in very good format, the keys to understanding what you're going to get when you order a glass or bottle at your neighborhood restaurant. Wine isn't a mystery, it's a process, and this book walks you through it with ease. This is as clear and concise as can be, yet is super-informative. You want something refreshing and light? Probably not a California wine, my friend. All you need to do is keep this info from the book handy, or better yet, know and understand it, and you'll be able to order and buy with confidence and ease. Too many wine books out there make it difficult - this one doesn't. Do yourself a favor and read it so you don't order the same old stuff and get frustrated with it being wrong for what you want.

It is a short book but dense. The author really knows what she is talking about. It helps you know and understand the basics of wine and wine pairings. It made me appreciate wine more. Now I am aware of the best pairings for different kinds of wine. I know which wine to get for a certain food. An authoritative book on a difficult subject. The author's writing style is easy. The ideas are refreshing like lower alcohol wines. I appreciate that the author shared her secrets in wine. This book is a complete guide to wines. It filled my thirst about getting knowledge about the subject. It gives you the foundation you need to be a wine expert. This is recommended to wine lovers.

I always envy my friends whenever they can give interesting "did-you-knows" on wines. I am a wine lover but I never had the chance to study interesting facts about it before. I am lucky to stumble upon this kindle book because it taught me a lot when it comes to wine. Wines indeed are popular and for me, a person who has ideas about it is smart. I wanted to learn how to identify a wine's age by just tasting it! Good thing I found this book!

This book is very well written. This book also discuss the basics of wine and you can find value able information from this book about wine. Author did a splendid work for beginnerâ™s like me who always have confusions about wine and wine pairing. Author also discuss benefits of wine with us. This book is short but very informative and helpful. Such a splendid work did by author. I highly recommended this book to everyone. Great job!!!

Whenever I get the chance to drink a wine especially during holidays, there are always questions in my mind about wines like, how it's made, why it differs in color, and taste? And all those questions were answered with this very informative book. Now I can go to the wine store and will definitely buy one and pair it to my favorite pasta or chinese food. Definitely will share all about wine pairing to my culinary arts students.

A great book, about wine secrets, you can be able to learn a lot of secrets in this book about wine different flavors and other contents found in different wines and the various names they are called. It's a nice book you can use the book to learn more about wine preparation.

Tom Kalani did a splendid piece of write up, i see it more like a guide to getting the best of wines using the special senses such as taste, smell and just by looking.I appreciate her good work, now i can spend my money on good wine and not regret afterwards. You will find everything you need to know, perhaps some answers to several questions that you may have about getting a good wines.Highly recommended for wine lovers...

Although this book was very short, it is full of useful information about WINE.Thanks for the in-depth knowledge. Hopefully you have more or us to read in the future.Can't wait for your next title.
