Customer Reviews

However this work deserved every one of them. Great characters. Great storyline. Each character was developed and grew steadily. If I have one complaint, the story seemed a bit rushed and was too short. Overall a great read.

This is one of the best books I have ever read! It is a must read if you are wanting love and

romance. The characters are both funny and serious at times which makes for a great read. It will make you laugh, cry, and have a whirlwind of emotions....Love this book!

I thought there would be an interesting story here but was disappointed when I started reading the book. The writing is poor and the story is more than a bit unbelievable. The characters are not well developed and their interactions are forced and clumsy. There were typos to be found throughout the book. Not worth the time or the money.

In general not a bad book....for me a little too fast with little depth.

A love story that was lost. But then found again. Love the story line. enjoy it very much. But i feel that sometimes they should have a conclusion of there love story..my thought

I got to say it was awesome, the cats had me in stitches. I couldn't put the book down another great story from a great writer can't wait to see comes next

It's a nice story overall where parts were touching and felt. It was easy to read too. Why can't I all fall in love like that :).Cheers.

What a great book. I was looking for something to keep my interest from start to finish. This was a book I couldn't put down
