## Customer Reviews

Health coach/author/nutritionist Jordan Ring is the owner and creator of [Fiberguardian.com](http://Fiberguardian.com). He is obsessed with the high fiber diet and is currently in the best shape of his life. He believes in taking action and taking accountability for his own choices, and has made it a life goal to share his ideas with the world. Thus we have his book *The Action Diet: 35 Practical Weight Loss Tactics* as Chronicled by the Fiber Guardian. In a near cheerleader style of writing Jordan relates his own weight struggle, how he overcame it, and now offers this no-nonsense book that will serve the reader committed to life changes to shed blubber, learn about nutrition in more ways than imaginable, and in the end shakes a big stick in his magisterial manner of teaching us to take responsibility and make the changes he recommends that have worked for him. From his book we learn the following – “The first section of the book will give you an introduction to who the Fiber Guardian is and how he came to be. It will also discuss the first tactic, which is all about focus. I hope you’ll be intrigued enough to stick around for the rest of the ride. Section two covers food–related weight loss tactics, the most important of which is upping your water intake. Beyond the basic need of water, we all must eat in order to keep on living. Choosing what types of food to put into your body is very important. The choices we make about when to eat or how much to eat directly impact our waistlines and ultimately our lifespan. This section discusses a multitude of tactics that you can use to eat better, such as eating high fiber foods, waiting before filling up your plate again, or trying new foods to keep things interesting.

I enjoyed reading this short book very much. It’s exactly the kind of self-published book I treasure: based on personal experience, relatable, practical and full of common sense. As usual, I will start with the shortcomings, as I see them. All two of them – First, I found the list of weight loss tactics tiresome, especially the long list of benefits attached to each of them. I think my problem was that I knew most of them. I also felt they could have been better ordered; sometimes some minor points were right in the middle of something really impactful. However, the author was quick to advise not attempting to implement all, or even most of the points. I recommend you read the book till Tactic #5, then read introductions to each of the further section, and study the Table of Contents. Pick one tactic only – perhaps two – from the further sections and try to apply them. Finish with Section 5 which summarizes the book and is definitely worth reading. By the way,

• The Action Diet • can serve you as a guidebook in your weight loss. Once you successfully implement one tactic, go back to the book and find another tactic you can implement in your life. Habits science Secondly, the book is a little shallow on the subject of habit formation. Jordan advises having fun "as a way of avoiding boredom" as a remedy for inconsistency. While it's not the worst advice I've ever had, it's not also the best. In today's instant gratification world, I can easily imagine the allure of one "interesting" weight loss activity after another. Isn't this the reason why people chase new diets all the time instead of focusing on something that really works for them over a long period of time?
