Customer Reviews

I have sensitive skin and allergic reactions to chemical substances from factory-made products for the skin. For this reason I decided to prepare lotions for me by myself. The recipes are easy to follow and you don't have going out to buy a lot of crazy gadgets, just use what you already have in your kitchen. The great thing about creating a lotion recipe is that you can customize it to be the texture you love. Really well-done book, and I recommend it sincerely!

It is really nice if we know about what are the ingredients in a product that we are using. If you do love lotions and wanted to make your own. Then this book can help you with that. The ingredients are easy to find and preparing it is simple. You will going to be amazed how easy it is to make. Also we do know what we put in the lotion that we are going to make. Natural products is very safe and we do love to be safe.

Oh, lotion is a pleasant thing. It is very pleasant to make soap at home by your hands. It is such pleasant to take shower iwith your soap. It is more pleasant to make soap against eczema. So I think it is worth to make soap as per this recipe. It will be excellent to make a present as per this book recommendations.
