Customer Reviews

All you need to know about atkins diet is just right in this book. I admire how they summed up and perfectly constructed the introduction leaving less question in mind for the readers. It also has a portion of faqs that would help other readers to with their inquiries. Great book!

This book will describe the Atkins diet in detail, including the four phases of the diet, the foods that you can eat on each phase, and even some recipes that you can try. Atkins diet is very useful one, it can solve many health problems. I would recommend this book to anyone!

Great book in aiming a good and healthy diet. This Atkins diet actually looks effective, though I didn't try it yet. But this book provides guidelines and tips on how to practice this diet. The diet food recipes looks nice too and the pictures added makes the book more interesting to read.

I always wondered what the Atkins diet was all about. I always saw books in the bookstore about the diet. I'm glad I took the time to read this book. It thoroughly explained what the Atkins diet was all about in a matter of minutes with no fluff and easy to understand principles. I'm planning on starting this diet after this weekend and I'm glad I have this book by my side. The recipes are going to be easy to make and I expect them to be delicious. There are recipes for each phase, in detail, towards the end!

Somewhat informational. I prefer the original Atkins book.
