## Customer Reviews

I now have all Martha's books and would give 5 stars to all of them. Her recipes are reminiscent of traditional childhood dishes. Good recipes compensate for a lack of images. She's made vegan cooking a joy and a hobby. Everything I've tried so far has turned out so delicious. Some recipes appeal more than others but none are bad. Most of them can be easily modified to meet low fat/sugar requirements and she narrates it so well with an endless supply of hints and tricks. With her books my cooking is always a joy and a special event to look forward to. Her books have ignited a passion for vegan cooking. I found eBook versions very cumbersome so had to purchase hard copies.

I liked this book so much, I bought a few copies as gifts. Great recipes. I've tried a bunch of them and so far they have all been really good - also as an added bonus, they are very healthy.
