## Customer Reviews

A very light-weight book with very little detail. The book is sort of "folksy" and geared toward a very young or very old audience. Who ever edited the book was over paid. In my opinion the book, although cheap, wasn't worth the money.

This book is very good about iphone 6 , I had been android user now I want to change my taste so I bought iPhone 6 and this book has a complete guide on each n every features of the iPhone 6 , a nice one for beginners .

The best book on iPhone 6 , top grows cell phone now days . This book contains a lot of information on almost all features of this phone and able beginners to use it well in just few days .
