Customer Reviews

I like this book, The designs remind me of art by Morrison. They are all floral, The designs do not go to the edge of the page, Making them much easier to color!! I really love the designs in this book They look great!!- Matte cover- Single sided- Not microporforated but designs can easily be removed with a razor blade- Bonus pages in the back- Lots of variety in flower types and design types.- High Quality line art.

This is a cute book. I bought it for my 12 year old and it seems right up her ally. I went between 3 and 4 stars because the artwork isn't really up to the quality I am used to for "adult coloring books" but there is a lot detail and I love how the images cover the whole page. I have had other books that are just an image in the center of the page and that irks me. I much prefer books like this that really cover the majority of the paper. I am sure my daughter will have a good time coloring this while we are on upcoming road trip. Anything that gets them away from "screen time" is a win in my book.

What a lovely adult coloring book. Look forward to hours of enjoyment.

Cute and has quite a bit of pretty artwork. not as good as I was hoping but still pretty good
