The booklet of "Vintage Vogue" detachable postcards to color was given to me as a gift. The booklet contained the 24 cardstock pages, sturdy to survive being sent through the US postal service. There isn't a color guide so this allows the postcards to be colored to one's desire. On the address side of each card is space to attach a postage stamp, address of who the postcard is being to, and space to write a message. A coloring book's value is how the well the black lined drawings appear on the pages, how one sees the images to be colored in on the pages. Ian R. Webb did the black line drawings for the postcard pages with images from vintage British Vogue. Being unfamiliar with Ian Webb's artwork I don't know if these drawings are his usual style. The drawings on the cards looked to me like scratchy sketches from photos of vintage British Vogue fashions. In one sketch the hands looked deformed, in another the toy dog is unrecogniseable, no backgrounds, or suggested
backgrounds, the dresses may be incomplete, details vague, and the faces of the models look distorted. This product I would not have purchased for myself especially if I knew what the black line scratchy sketches looked like in a product preview. Save your money. I'd use other coloring images I'd colored and glue to cardstock, laminate and send as postcard.

Love the drawings and paper quality.

Really fun, especially if you have the Vogue Coloring Book. Change or recreate your coloring choices.
