Including BATMAN'S First Appearance - Issue #27, The World's Most Expensive Comic Book!
Detective Comics - The 1937 Series
Detective Comics is the title used the American comic book series published by DC Comics from 1937 to 2011 and was best known for introducing the superhero Batman in Detective Comics #27 (cover dated May 1939). The original series published 881 issues between 1937 and 2011 and was the longest continuously published comic book in the United States. Originally an anthology comic, in the manner of the times, Detective Comics #1 (March 1937) featured stories in the "hard-boiled detective" genre, with such stars as Ching Lung (a Fu Manchu-style "yellow peril" villain); Slam Bradley (created by Jerry Siegel and Joe Shuster before their character Superman saw print two years later); and Speed Saunders, among others. Detective Comics #27 (Cover Date May 1939) featured the first appearance of Batman. That superhero would eventually become the star of the title, the cover logo of which is often written as "Detective Comics featuring Batman". From WIKIPEDIA

Customer Reviews

The concept was awesome...an easy way to view all of the covers of this great title from 1937-1955. The problem was two-fold: 1- The quality of the covers is not very good; You'd be better off viewing the cover images from the Mile High Comics, MyComicShop, or[...]...the writing is blurry. For example you can't even read the number of the issue on the cover and yet the kindle book itself does not display the issue number above the cover image...this is just weird that you can go pages without realizing what issue you are on. 2- I tried viewing this on my iPhone Kindle App (vs. my Windows laptop) but the size of the cover images were so small (and did not allow me to zoom in) that I honestly thought it was a joke. There would be this huge blank white space representing each page in the Kindle book and a tiny box within it would be the cover but no way to zoom in or make it larger...I tried messing with the settings but could not find a way to enlarge. If this is the best that can be done then it is not even worth the \$5
