## Synopsis

Getting Your FREE BonusDownload this book, read it to the end and see "BONUS: Your FREE Gift" chapter after the conclusion. *Mushrooms: (FREE Bonus Included)New Ultimate Guide to Growing Mushrooms at Home For Dummies* New Bestseller from Micheal ColemanYou will continue your trip to the colorful and sometimes dangerous world of mushrooms. Whether you grow them at home or like to look for them in the wild it is important to understand the traits of those which pose a danger to your health. In fact, this book will enlighten you as to the real cause of most illnesses and fatalities caused by the consumption of mushrooms. It is not the poisonous mushrooms which most people know to steer clear off; it is actually the poor storage and picking of these mushrooms!Growing mushrooms at home is rapidly gaining popularity as people seek to become more self sufficient. The fact that these are easy to grow, delicious and colorful simply helps! Mushrooms are best cooked to ensure your body can break down the fibers properly; they can be an excellent accompaniment to almost any meal; even if you have only ever eaten the standard button mushrooms you can grow these at home and enjoy the fruits of your own labor. The book covers several key topics: Why growing mushrooms at home is becoming so popular and the difference between a mushroom and a toadstool. How decide where to grow them and prepare the plot along with other things to consider when first starting. The best method of planting mushroom spores or spawn and providing the right level of nutrients; including the right substrate. How to tell the poisonous ones and a variety of additional tips.
