South Sudan: Colonialism, Resistance And Autonomy

Synopsis

The newly created state of South Sudan, declared by the United Nations as recently as 2011, has yet to be extensively written about by the international commentariat. Lam Akol, a scholar of international repute in the field, as well as a politician with close knowledge of the workings of government (he was former foreign minister and is now leader of the opposition), presents a history of South Sudan that is uniquely authoritative and thorough. The book carries a foreword by Alan Gouly, who oversaw the secession discussions leading up to the declaration of this, the world's newest country. This book is essential reading for anyone involved in Africa and international development.
