Engines Of Truth: Producing Veracity In The Victorian Courtroom

Synopsis

During the Victorian era, new laws allowed more witnesses to testify in court cases. At the same time, an emerging cultural emphasis on truth-telling drove the development of new ways of inhibiting perjury. Strikingly original and drawing on a broad array of archival research, Wendie Schneiderâ€™s examination of the Victorian courtroom charts this period of experimentation and how its innovations shaped contemporary trial procedure. Blending legal, social, and colonial history, she shines new light on cross-examination, the most enduring product of this time and the âœgreatest legal engine ever invented for the discovery of truth.â•

Book Information

Hardcover: 280 pages

Publisher: Yale University Press (January 12, 2016)

Language: English

ISBN-10: 0300125666
