## **Professional Betting Strategies For "Horse Racing" Betting Guide Is All About Placing Your Bets Intelligently For Better Winning Results. "Bet Smart"**

## Synopsis

If you are a serious horse player and you know all the ins and outs to pick a winner from the race card, it is equally important for you to learn how to place a winning bet. What is the point of spending your time and money at the Tracks, if you walk out without a winning ticket? Especially when you average 50% to 60% winners from the selection of your list. Every professional horseplayer knows, horse racing is not about picking winners only, it's about winning too. What most Horseplayers don't know, is the fact that, selecting winners from the race card, doesn't guarantee the winning. The winning is only sustained with professional betting strategies in an active game. The first piece of advice, I received years ago, "Never put all your eggs in one basket". The techniques here, in this book, provide an opportunity to be a winner at the end of the racing day, even if a horse player has a few losing horses on the list of his selections. This book will teach you, how to place your bets for better winning results, with even fewer winners on the board. For each and every horse player, the bottom line is, to walk out as a winner when the day is over, and the real professionals are those, who comes out as a winner from the Tracks, even after few losers on their list of selections.
