## Customer Reviews

What a huge disappointment! I was expecting that I could actually make the 12 bracelets with this craft kit but after receiving my kit and reading the book, I was shocked to discover that it only includes enough materials to make 3 "starter" bracelets. That part is not even true because you will

need other items to even create the 3 starter bracelets. When buying a kit like this, one would expect the materials to be included. They don't even include a beading needle and thread, which are the materials needed to complete the starter bracelets, as well as any other ones you want to try with your own materials. How much do a needle and thread really cost? Was it that hard to include them? Especially since they are necessary to complete every project in the book!!! And as far as the "free youtube tutorials", anyone with internet access can view a youtube tutorial so that is definitely no bonus! I only bought this because I thought that I would be able to make the bracelets in the book with the materials INCLUDED in the kit. I think that I will most likely have to return this.

I also wish I had read the reviews before purchasing this. It's very cheap, but you get what you pay for and in this case you're not paying for much. To be clear, the bracelets shown on the cover photo can not be made with the beads sent with the 'kit'. The beads are tiny and cheap and you aren't given the materials to thread the beads on to the cord. Oh well, there's a book at least!

Major disappointment. Should have read reviews. Does not come with everything.

What a waste of money!!! It says you can make 12 bracelets from this.. TOTALLY WRONG!! they give you a couple a heads, a couple cheap charms and cord.. And... Nothing, you can't make any of the wrap bracelets because you don't have the needle and thread needed to do it.. And then cord board-- is just a flimsy piece of cardboard.. Junk.. I'm so disappointed.. I got this to give myself a project to do while I'm away from home.. And I love wrap bracelets... But I can't even do anything with this!!

I did not read reviews before I ordered wish I did. Just got it today and with what I ended up paying for this with the shipping is ridiculous. In no way can you make any of the bracelets that are shown on the pic. It is junk the beads are just garbage the kit in no way is complete I can not make any bracelets without having to go and buy more material. As far as I am concerned I am calling first thing Mon. to see how to send back and hopefully get my shipping cost back as well.

I really wish I would have read the reviews... I was very excited to get home and make some bracelets and when I opened the box I still needed a needle and thread, I was very disappointed because I don't have any place near me to go get them... Now I have to wait until I go back to town to get some. It would have been helpful if the items not included were on the outside of the box and

not inside the book

Only makes 3 bracelets, not 12. Beads are cheap plastic. You cannot make the bracelets on the box front. Kit isn't full, no needle. I returned.
