Customer Reviews

OMG!!! I had no idea just how much I didn't know! I was just in Home Depot this past weekend and bought "a sponge" to wash my car with - thank goodness I haven't used it yet. I'm taking it back unopened. There is so much I just had no idea about. I thought I was okay going to the auto parts

store around the corner - who knew I was actually buying "products of torture" for my car's paint.Joey clearly has significant experience in the car detailing business. Previously I've gone into the auto parts store and not really known which products were best - what should I buy to take care of my car?Now I know. Joey gives a clear list of which exact products he recommends and where you can find them. This is so helpful!I am about to get a new car and this book is going to be my "car care bible".For me I have struggled with getting wax and cleaners on the black rubber / plastic parts of my car. Then it seems impossible to get rid of the mark they have left. Now I know what to do, what products to use and how to do it right.One of the most simple things I found in the book was a small change to the bucket of car wash water that I dip my sponge in. Joey recommends a simple grit grate - so ingenious, as it stops particles floating in the water from getting back into your sponge.The chapter on Common Mistakes really hit home for me - I think I have committed everyone he listed :(If you care about taking care of your car - you gotta get this book.I'm never going into an automated car wash ever again!

REALLY great details and specific instructions on what to use, how to use it, and how to get the most out of it in keeping your ride SHARP! This is an amazing consolidation of really great insights, and specific action steps to keeping your car clean, and well maintained! Joey has done a really great job of gathering his years of experience and clearly laying out what you and I can do, cost effectively, to make our rides sparkle!Really enjoyed the stories too!!

Really informative, super readable style, and answered all the questions I wanted the answer to. Really straight-forward and helpful, great pictures too.
