## Customer Reviews

This is the very first Minecraft book have seen with tips on how build certain structures in Minecraft. With clear explanation, along with steps and detailed pictorial instruction, it's better understood and

easy to go about. Very interesting and adventurous Minecraft.

OMG! First of all thank you for making this free Minecrafter Kid! Second of all, this book is better than my physical copy of an construction handbook! But for some reason this reminds me of TSMC on YouTube! The one flaw was I can't use stained glass in PE! Since that was a little baby flaw, it still deserves all five of the stars I have to offer!-Unikitty159
