Customer Reviews

I highly recommend this book to School Counselors at any point in their career. It's an easy to read manual for enhancing your program with data driven packages. I appreciate that it aligns with RAMP components as earning RAMP designation is a professional goal of mine. This book will be my guide for the coming school year.

well written and easy to use, great guide for counselors! We will be implementing this in our school starting Summer 2016.
