Customer Reviews

For real, I have been a fan of Pokemon and this game has gotten my attention ever since it

announced it launching. This book has given me the basic and easy steps in becoming one of the greatest pokemon go gamer! The tips and tricks, even the strategies here are really helpful. I am so excited reading this book and learning the techniques and the important things that I should do for me to improve on my play. I enjoyed the way this book is being illustrated. It's fun to see real pictures of the real game which makes it more helpful. Full of knowledge, facts and excitement.

While everyone seems glued to their phones nowadays, sometimes you will see people both staring at their phones, running, and screaming wildly. What are these people doing you ask? They are playing Pokemon go, the latest and greatest game craze. If you don't know what this game is, then this is the book for you! It has all the instructions, tips, and tricks to get you started having fun with Pokemon Go.

I have been playing this game so this book is a pretty good idea to get good updates and tips in this popular game. It is a simple way to have fun and with some of the changes done to it, it's always good to keep up to date to learn the best tricks and techniques.

NOTE: I received a free copy for reviewing purposes. My buddies and I have caught the Pokemon Go bug, and we've been perusing all the guides we could find for the best tips. Did you know that it takes one-hundred Magikarp to evolve it into the best Pokemon in the game? Neither did we, until we used this guide. The only con to the guide is that it is a little out-of-date, considering how often Niantic updates the game. Still, we were able to get plenty of use out of the guide. For one buck, you cannot go wrong.

Great guide if you're absolutely new to the Pokemon game,. Didn't expect to see actual tips on how to catch higher pokemons . Love the book the cute cover and the Pokemon Go Guide
