Beyond Borderline: BPD's Great Concept Album! I enjoyed reading Beyond Borderline, 24 stories of people in recovery from borderline personality disorder (BPD). Earlier I loved reading the autobiography, Buddha and the Borderline, because Kiera Van Gelder writes well with wit, feeling and voice. These writers follow that lead as Beyond Borderline reads intensely and each story is only a few pages long. It was like Buddha and the Borderline on steroids and healthier than steroids! A sad fact is that the writers did not want their names on the stories. That reinforces that stigma is still with us! I watched Van Gelder talk on video with a slide that showed names of some others in recovery. She hoped to have 200 names, but only 15 agreed to have their names there. The Afterword of this book emphasizes that these people were in various processes toward recovery. Recovery is a continuous journey. It is not like a happy ending to a movie and all is fixed! As the writer in the chapter "Walking" said: "The happy ending is that I'm alive and there's hope in that." One doesn't usually go back to that life you thought you were going to have. That's what I didn't get for my loved one's first years of this! I thought she's going to get fixed and right back on path! The path is different than expected and recovery is different for everybody. I compare these stories with songs I grew up with on favorite albums. What's the best one on the Beatles "Sergeant Pepper's," the Stones "Exile on Main Street," Joni Mitchell's "Hejira," or Dylan's "Blonde on Blonde"? If you chose "With a Little Help from My Friends" from the Beatles Sergeant Pepper's album, you might choose Beyond Borderline as your helpful friend off your bookshelf.
