Fire Of Love: M/M Mpreg Alpha Male Romance

Synopsis

Josh is a highly successful sportscaster. He has the respect of the athletes he covers, the admiration of his peers, and a string of awards for sports journalism. None of those blessings would be possible if anyone knew the truth: Josh is also an omega, hiding his status with the use of pharmaceuticals. When his network assigns Josh and his partner to be âœembeddedâ with a new pro football expansion team, the Salt Lake City Stars, he knows heâ™s doomed. There are plenty of alphas in professional sports, after all, and one of them is bound to figure out what he is if theyâ™re in such close quarters. Matt is one of the best wide receivers to ever play the game. Heâ™s also an alpha. When he meets the hot reporter heâ™s only ever seen on television, it doesnâ™t take him long to figure out exactly whatâ™s off about him. His dreams havenâ™t come true, though, just because Josh is an omega. Both Josh and Matt have to hide their status from the eyes of the world. After all, professional sports isnâ™t known for its acceptance of alphas or omegas. When a figure from the past threatens to reveal Joshâ™s secret, will he be forced to bear the consequences of their passion alone? This is a non-shifter male pregnancy gay romance book. This book contains sexually explicit content not suited for those under the age of 18. The book is approximately 60,000 words, has a happy ending and does not end in a cliffhanger. The book does include a bonus chapter for insider's club members. However the bonus chapter is not required to finish the book.

Customer Reviews

This book started out a little slower for me, but I think it was the sports stuff, not the writing. I am so far from a sports fan it's not even funny. That said I am going to jump into my review. I will warn you now; I toss spoilers into my reviews. This is a story in a universe where we have Alphas, Betas, and Omegas. They are not wolf shifters, but this is explained as a gene issue. It is a very well established universe, and I really like how it's handled. Alphas are the dominant partner, and Omegas are the submissive by nature. As far as I can tell, they are always male and gay by default with some Alphas being bi. Omegas can get pregnant, so be warned, there is MPREG in this universe. Betas are your generic every other person. We start this story with our Omega Josh, who is a sports reporter, a very unique position for an omega to be in. He uses suppressants to deny his omega urges, and is quite happy living his life focused on his career. The drama of the book was the Alpha from Josh's past who had hurt him. Josh is set to do an in depth reporting on the local football team, and Tim is one of the new Alpha recruits there. It was a good story plot, but I would have liked to see more about what drove Tim (The jerk) to go after Josh after so much time had passed. Some more in-depth scenes with what drove him to act to the extremes he did now would have been really beneficial, and rounded him out a tad more. The back story between him and Josh was very good, and gave a great lead in; I just wanted a little more now. I wanted a better closure I guess. As for our Romantic Interest Alpha, when we first met Matt, I was inclined to like him, he showed concern and protective tendencies towards Josh, and it made me really like him.
