Zecharia Sitchin And The Extraterrestrial Origins Of Humanity

Synopsis

An in-depth analysis of Sitchinâ€™s revelations about the Anunnaki, early humanity, and Earthâ€™s futureâ€¢ Examines Sitchinâ€™s research into the Anunnaki arrival on Earth, the lineage of the Nefilim, their space travel technology, and their creation of modern humansâ€¢ Written by longtime Sitchin friend and colleague M. J. Evans, Ph.D., and draws upon her research and personal discussions with Sitchinâ€¢ Explores the lust and lovemaking relationships of the Nefilim and suggests we inherited our warlike and love making tendencies from themKnown for his provocative interpretations of ancient Sumerian and Akkadian clay tablets, Zecharia Sitchin (1920-2010) read the words of our most ancient ancestors as fact and, through decades of meticulous research, showed that these ancient tablets revealed a coherent narrative about the extraterrestrial inhabitants of Earth and the origins of modern humanity.Drawing upon her many conversations with Zecharia Sitchin over nearly 20 years, M. J. Evans, Ph.D., longtime Sitchin friend and colleague, provides an in-depth analysis of Sitchinâ€™s revelations about the Anunnaki, focusing on Anunnaki activities on Earth and Earthâ€™s future. She explores the genesis of Sitchinâ€™s interest in the Nefilim, the leaders of the Anunnaki, and the controversy caused by the publication of Sitchinâ€™s first book, *The 12th Planet*. She examines Sitchinâ€™s research into the Nefilim family tree, the Anunnaki arrival on Earth to mine gold to repair the atmosphere on their planet, Nibiru, and their creation of modern humans as workers for their mines and to build their civilization on Earth. She shows how, in the context of 21st-century technological capabilities, Sitchinâ€™s work casts a different light on ancient events, with implications for our future. The author reveals the details of the love and lust proclivities of the Nefilim gods Anu, Enlil, and Enki and the goddess Ishtar/Inanna and shows how we inherited these tendencies from our Anunnaki creators as well as their use of war for problem solving.Concluding with an examination of Sitchinâ€™s prediction of a nuclear event on Earth in 2024 AD, she shows how we would be repeating the aggressive warlike behaviors of our Anunnaki creators, who may very well become our saviors when Nibiru next returns to our solar system.

Customer Reviews

I always try to be respectful of peopleâ™s beliefs but when the evidence starts getting so overwhelming that our human origins may be far more complex than we originally thought, itâ™s time to get brave and open our minds to something pretty amazing. This information doesnâ™t stop our quest to find God; it takes us to a whole new level of mystery of who we are and why we are here. I highly recommend books such as this to anyone who wants to know the truth more than he or she wants to be right. I covered this topic in my book on beliefs because to break out of a belief is all but impossible for some people. *Rahasya Poe, Lotus Guide To Believe Or Not To Believe: The Social and Neurological Consequences of Belief Systems*

Probley better off reading Sitchins own work or even Chris Hartys Dna of the Gods. I've read other works by several authors on the same subject and found myself disagreeing with this author on several topics. She takes a mainstream stance on our current wars current global situation witch I don't agree with.

Concise, well written summation of Sitchin's work. A "cliff notes" on his 14 books.

Very interesting, offering a new perspective as to where we came from.

More of a biography of Sitchin
