Customer Reviews

This is a very helpful guide. It's well written and easy to understand. A lot of canned soups, packages of dried mixes and various cheeses are used in these recipes which does speed up preparation time, but in most cases it also increases the amount of sodium per serving. The recipes are so simple that the whole family can get involved, including the younger ones. It includes an abbreviation list and conversion chart at the beginning, which is certainly useful. There is also a table of contents in case you are searching for a specific recipe. All of the recipes are laid out the way most recipes are. The recipes are straightforward, easy to follow. Overall, i highly recommended.

This book recipes is a great book and includes very delicious recipes. This is a very helpful guide. It's well written and easy to understand. I have read so many books about crock pot cooking, and I really love the recipes in each books. I especially love cooking soups because it is my favorite, and after reading this book, I managed to get a lot of recipes, I can see that the ingredients are also very healthy, and I felt that the way the food was cooked, it is really full of taste and it is delicious. I will try some of the recipes soon. And I enjoyed this book.

Crock Pot, Slow Cooking Recipes for Easy Crock Pot Dump Meals and Dump Dinners for the slow cooker is Very easy to navigate and very easy to find what you want to eat. The recipes show the total time but don't break down by prep and cook times. I have many recipes I want to make. Great book great recipes and all recipes are easy to use. I am always using my crockpot, put everything in and let it do the work. I highly recommended this book.

The recipes included in this book can make your life easier and healthier. This book also provides information to help you choose a slow cooker that suits your particular needs. This book is a really well put together collection of crock pot and slow cooker recipes. I decided to download this based on some of the other reviews and am very happy that I did. The recipes are all described in great details with everything you need to get started.

It incorporates a shortened form rundown and change diagram toward the starting, which is surely helpful. This book contains wonderful formulas that are useful for breakfast, soups, principle course dinners, and desserts. these formulas are changing our life and spare cash. The going with pictures are exceptionally useful for realizing what the completed item ought to resemble.

My mother in law bought a crock pot so I purchased this book for her. She doesn't know how to cook and doesn't know many recipes so this book is perfect to start with. The recipes are easy to prepare, the instructions are clear and I must say that the meals are soo tasty! Although I would definitely like to see more recipes here

I'm in love with my crockpot because honestly I hate cooking...it's messy, it's hot, it's annoying and time-consuming. But crock-pot cooking is the complete opposite. As such, it's my go-to year round for eating healthy but without any elaborate preparations. I'm always looking for new recipes to try and this one, I noticed had numerous recipes I can't wait to try. Another plus is how accessible it is, I can literally just read through the recipe on my iPhone kindle app while tossing the ingredients in my slow cooker, then set it, forget it and do whatever else I need to.
