Tarzan On Film

Synopsis

In this authoritative volume, writer and historian Scott Tracy Griffin traces the development of the history-making Tarzan franchise, from the motion-picture industry's early silents and serials, through the high point of the Metro-Goldwyn-Mayer era featuring Johnny Weissmuller and Maureen O'Sullivan, to modern worldwide hits like Greystoke: The Legend of Tarzan, Lord of the Apes and Walt Disney Studios' animated Tarzan.

Customer Reviews

Absolutely loved this new book by Tracy Griffin. It is meticulously researched, for both text and illustration. Tarzan on Film displays many shots from the movies that I have never seen. The book also discusses a lot of detail and facts that I did not know. I thought his Tarzan: The Centennial Celebration was a real impressive work, Tarzan On Film is equally impressive, and shows Tracy's command of his subject. Don't miss this book. It is the definitive source for all the Tarzan movies.

Large, informative book. Covers stuff that hasn't even come out yet. Good history and full of trivia and anecdotes. I liked that he did not give any of his own opinions on the movies, but delivered you straight information and facts. Lots of good (and large) photos and movie poster images. Provides info on both the Tarzan actor and Jane (where applicable) for each movie.

This is an excellent book! If you are a Tarzan movie fan, you gotta have this one! And if you are just a Tarzan fan in general, you really ought to have it! Do yourself a favor and pick it up right away!

You'll be glad you did!

Any fans of Tarzan in the movies will love this book. It's a must have for lifelong fans of Edgar Rice Burroughs' most famous creation, as well as those who only know the Ape Man from his celluloid adventures. It's comprehensive and a beautiful coffee table book.
