## Customer Reviews

Fantastic book on this topic! I have studied dream yoga a bit, and have found this book to be the best in terms of accessibility, especially as it pertains to the western mind. Andrew's writing is as concise and thorough as it is warm and personable.

Without a doubt the best book on dream yoga or lucid dreaming I have ever encountered. Without a doubt! Andrew does an absolutely masterful job integrating the views AND practices of the East and West. This integration (and it is an actual INTEGRATION) creates a teaching truly greater than the sum of its parts. His presentation is extremely accessible to the lay and advanced practitioner alike, quite a feat when considering the complexity and scale of the corpus he is working with. Andrew shares how he knew he had "come home" • when he was first exposed to the teachings of dream yoga. I believe this explains the feeling I have had while reading this book: as though I am being warmly invited into someone's home. I am deeply grateful to Andrew for this work. Such a service, such a treasure, such a gift.

Andrew Holecek has written an astounding book! Beautifully written, I found myself thoroughly engrossed in his presentation on lucid dreaming and dream yoga. The prose reads as poetic and concise. The author elucidates both subjects in ways that reveal their profundity and simplicity. Easily the best book I've come across on Lucid Dreaming in a longtime. I highly recommend it!

This book is so well conceived and researched that even the footnotes are informative and well worth reading. I found Mr. Holecek's audio recording of the same name just a wonderful, inspiring tome on the subject of lucid dreaming and dream yoga. In his own warm, encouraging voice he makes this rich practice accessible and clear. The book is a more detailed expansion on the material--clearly researched and thought out through a lifetime of practice. To me, both the CD's and now this book have one overarching message--dream practice can enrich your life however you practice it, and it's do-able in some manner, shape or form, to each of us. So just get started! I owe him a great deal for both the practice details and encouragement along the path.

When reading Andrews book I found it enlightening. He was easy to understand and I could relate to his experiences and his teachings. I highly recommend this book on Lucid dreaming to all who are searching for higher spiritual awakening.
