I have never been to Jamaica but after tasting some of their delicious recipes which I have prepared using this cookbook which is the banana fritters, I would want to visit and eat it there! The drinks are astounding especially the fruit punches and the desserts are breath taking. This recipe guide is indeed a great way to taste food from other regions and is worth keeping for references. The format of this book is nice enough for readers to be guided. I could not wait to try other recipes in this book!

Unlike most cookbooks, the explanations for some of the ingredients are at the end of the book. I am lucky that I live in an area with eight bodegas within walking distance. Of those, only two have the same ingredients sold. Most of the time, we prefer the bodegas to the two grocery stores. However, I don't think any of them sell dried pimento berries, which seem to be a very common ingredient. I wish where these could be found was explained. Other than that, these recipes look to be some I would make often, if some ideas of where the ingredients could be located. Only that lack lost this a star. The side dish ideas were particularly welcome.

I had a chance to visit Jamaica months ago and got introduced to their famous cuisines. Truly, they have the best foods I had ever tasted which made me fall in love with their culture and foods! So I decided to get myself a book that would make me taste how good their foods are even if I am at home. Opening and reading this recipe book allowed me to learn. I was also amazed at how easy it is to follow the instructions. I actually have already tried some of the recipes here and I love it! If you wanna learn cooking Jamaican foods, this book is for you. ;)
