Visualizing Technology Complete (5th Edition) (Geoghan Visualizing Technology Series)

Synopsis

This book covers all of the traditional topics taught in a Computer Concepts, Digital Literacy, or Computer Literacy course. Â Visualizing Technology is unlike any textbook youâ ™ve seen before. Instead of pages full of long paragraphs, youâ ™ll find a highly visual, magazine-style layout with images creatively representing concepts, making them easy to remember. Chapters are organized as articles with catchy headlines; all the details are included, but in bite-size chunks of text that are written for the way students think. Youâ ™ll also find coverage of ethics, green computing, and careers in every chapter. The content is modular, so you can use this book however you teach your course. Â In the Fifth Edition is an all-new design that presents the content in a more linear, engaging wayâ ”just like students would see on their favorite websites. Every chapter now also has both a Digital Literacy project and an Essential Job Skills project to help students gain the practical skills they need for todayâ ™s work environment. Â Note: You are purchasing a standalone product; MyLabâ „¢ & Masteringâ „¢ does not come packaged with this content. Students, if interested in purchasing this title with MyLab & Mastering, ask your instructor for the correct package ISBN and Course ID. Instructors, contact your Pearson representative for more information.
