## **Customer Reviews**

I cannot say enough about how much I love this book. It is written in common-sense, plain English, but it is sheer brilliance. I've worked out my whole life; this changed how I think and what I do. Get it. Do it.

There is something about Mark Lauren that'll get you working out and motivated!

Rockin' workouts and sound philosophy. Great material all around.

Just because an exercise is done with bodyweight doesn't mean it is functional. Some of these exercises are just plain weird and would never be useful in real life. And they can be hard on the lower back. I've purchases all of Mark's books but the only one that I still refer back to is Body By You. If I'm going to do body weight workouts going forward I'll stick with standard variations of pushups, pullups, rows, and squats..
