## **Customer Reviews**

The book might not seem much but after several weeks of eating different soups on a near daily basis, I can easily say that this cookbook is a winner. Every recipe has at least one ingredient that gives the dish an identity of its own. Like one of the chicken soup recipes calls for oats adding some texture while others require something to give it that foreign appeal. Not to mention these ingredients are good for the health conscious as well. I can literally prepare a "soup of the day" everyday and once in awhile to keep things fresh!

I like soups because they're very easy to make, healthy, and filling! Plus, going on a soup diet is a tried and tested way for me to shed off some pounds when I need to. I'm also a big fan of the Mediterranean cuisine because I lived in Rome for 5 years when I went to University. This book just appealed to me on all levels. My mouth was watering the entire time I was browsing through the recipes and I made it a point to bookmark all my favorites. Each one is simple and had easy to follow instructions, so the chef wannabe that I am is excited. Loved this and had lots of fun with it!

The Everyday Soup Cookbook has made me cook actually, and I'd like to thank this book and its author for that. I've been trying to make some decent soups before but always in vain. This time, however, I was able to do 1 because of this amazingly helpful book. And for me and my family, this is an achievement. I appreciate the book's easy way and the steps which were clearly given. And what is even more amazing is that the soups are inspired by the Mediterranean Diet. This us surely worth the grab.

Awesome recipes. Quick and easy healthy eating. We are a family with a love of soup. Looking forward to making this my bible of soup recipes.

Great, easy soups. I use the pressure cooker in place of a crock pot so soups are ready in minutes.
