Customer Reviews

Like this book. For me, it was honestly easy and funny reading I had fun during all with every single page. My favourite were examples at the beginning a new chapter. I think those questions you can use only in case if you know somebody very well or the second case is when you don't want to

interact with random people so you can use some of the phrases and scare them ^,â <

Very nice book and actually very useful. It seems to be very easy to speak dirty with your partner in bed...but...in fact you should be more confident and open. Is it so easy? I am not sure. This book will teach you how to fight with your fears in bed and how to improve your sexual life.

I bought this book, thinking that maybe it had some really corny one-liners, but I ended with some great examples that, btw were already approved by my GF, I didn't know that she would like that and she was surprised that I even knew how to speak like that. I can't wait to try more of them!

when I was introduced to this book, I almost didn't want to get it as I thought it would be something extremely raw but I was wrong. It was just what I needed to spice up my relationship. I enjoy reading it and will gladly recommend this book.

This book is very helpful to women and couples who wanted to enhance their sex life. It gives refreshing ideas to readers on how to properly initiate such a thing. The tips being shared here will totally give a change to a couple's sex routine. Doing something new with the partner would surely ignite your desires. Be confident, creative and honest when talking dirty with your partner. It will definitely make every couple get to enjoy what they are doing.
