## Customer Reviews

In every page of this book you can learn new things about relationships. If you want to find more about different kind of relationship, and find many interesting things, you will have an interest in this book. This book describes real situations that are happening. But, in this book, you have much more than that; you can find more about different relationship. So if you want to find more about open relationships and much more, read this book and find out more interesting things.

Very insightful take on this ever-controversial topic! I first of all congratulate the author for putting the book out there - going against the grain of 99% of people is something we need more of it. I also thoroughly enjoyed the book. It is a short and concise read that introduces us not only to polyamory - but also away from the age-old monogamy that we know so well. It offers great arguments in favor of polyamory - and a plethora of new vocabulary!. It has great insights on how to deal with jealousy or insecurity, elements I am sure most people will identify with if they ever have thought of going into polyamory. In short, it's a book I would highly recommend for the modern couples of the 21st century.

Suppose you are in love with a woman whom you just can't leave and without her, your life's meaningless. But one day you know that she is poly amorous. What will you in that case? Do you have the solution? By going through this book, you will get your solution and all the answers that you need. The book is about finding and accepting one's vulnerability that will help you to develop not only meaningful but also close relationships with people around you. It's about being honest about who you are and what you really want from your life. A good work from the author to present a complicated relationship easy to the readers.

A must buy for anyone who has been thinking about or considering a Polyamory relationship.

Though it may not be for everybody, if you are curious about pursuing this then you should definitely pick this book up first. Author Charlotte A. Rose highlights the positives and negatives of such an arraignment and really delivers some good insight.

I found this book very insightful and informative when it comes to relationship. This book truly gives you a path to follow on the road to successful Polyamory relationships. Men out there listen clearly. This is the only book you will ever need. I highly recommend this book! Charlotte A. Rose is fast becoming one of my favorite authors.

I never got the advise that I gained from reading this book. This actually explains what is inside of me without putting so much pressure on me. I can even understand myself now, Thru this book, I have now a brighter view at everything and I am grateful with this book. Charlotte Rose is such a good adviser! Will surely look more of her books from now on.

This read like a college paper...informative but lacked substance and depth. Nothing other books like The Ethical Slut have already covered in depth. I was hoping for more on poly dating for the single person. How to introduce yourself as "polyamorous" but single.

This book is an eye opener that there are many kinds of relationship that may be considered outside the norms of the society but accepted in other cultures and beliefs. I think everyone should be aware of these things to avoid prejudice. Covers most topics people might be confused or concerned about when approaching this subject. The author does not take a strong stance for or against a polyamorous relationship, but instead lets the reader decide if it is right for them. There are many valid reasons to engage in a polyamorous relationship, and this book is designed to explore all the possibilities of polyamory so that you can better determine whether or not it's something you'd like to try, and which type feels right for you.
