Customer Reviews

Awesome! I was asked by the author to share my honest thoughts about this book. After reading it, i can honestly say that this is a high quality book. This book talks about: Importance and history of honey, Scientific support to honey, Different types of honey, Home made remedies and much much more! I always be a fan of honey as a natural way to be healthy. As you can see, this book can really help you with have a healthy life, so i really recommend this book! Worth reading book!

Loaded of interesting information on verging on each methodology of alternative medicine. It also clarifies here the diverse practices, how they work, and what they supplant in the world of natural medicine. A must read book, it gives awareness to readers that there are lots of alternative medicine choices available. It gives important info for all kinds of health problems. It is a good book with lots of natural remedies

a place to turn to get honest, biblical and easy-to-read information about the many different approaches to medicine. With so many philosophies floating around, I'm grateful to find a simple approach to healthy healthcare. I'm also grateful to the authors/doctors who put this together in one, handy place. Thank you!

Easy to read and direct to the point. I like reading books that are concise and short rather than books that has too much padding on it. There's lots of information here squeezed in just 43 pages. Perfect read for starters like me. I shall check out some other books as well regarding herbal medicine. Thumbs up!

This is a great herbal book. It contains a lot of herbal medicine that can be made at home and keep you healthy. The herbs are medicinal and are easy to make. I need to read this book once again so that i can understand more about the herbs. I found it interesting and i recommend this book. A job well done by the author.

I purchased this book for my wife and she said it is really useful guide with a lot of easy homemade recipes for a lot of occasions. She is a huge fan of alternative medicine and already used to read a dozen of different books, so I believe if she said its a good book - it's a good book.
